**WHAT A PLAYGROUND**

How to install SudokuDuel Beta edition on your Android device

Step 1:   Enable Unknown Sources

Before installing you will need to allow your phone to install from "*Unknown Sources*" (i.e. non-Market apps).

To do this, navigate to *Menu -> Settings -> Applications* and check the box marked "*Unknown Sources*".

Step 2:   Download the installation file SudokuDuel.apk file from whataplayground.com

In your phones browser go to www.whataplayground.com/sudokuduel.apk and the download of the game will start.

Step 3:   Install the game

Open the notification area by dragging it down from the statusbar and wait for the download to finish. When the download is completed, press the Sudokuduel.apk file and give us the needed permissions to install the game. The game is now installed.
